Nr. 2-3141/11

March 2011

The Swiss lighting specialist is offering a new series of solid and easy transportable bags that fulfil the requirements of today's broncolor customers.

broncolor Big bag

broncolor's new case system has been carefully designed to facilitate work and transport. Equipped with castors and tested for heavy-duty use, broncolor will supply its kits with the new Big bag as from May 2011. Thanks to clever partitions provided with Velcro®, there are no limits to the possibilities of arranging the inside of the case. Additionally, because of the deliberately reinforced walls and lid, it provides special protection for the broncolor product family.

broncolor Light bag

From May 2011, all Senso and Mobil A2L kits will be supplied with a newly designed Light bag. Its striking feature is the blue zip, which immediately signals on all sets of the world that here work is being performed with high-end equipment from broncolor.

Beauty Dish bag

Because of the sensitive surface of the Beauty Dish reflector, we have especially designed a bag to enable safe transport for the photographer's broncolor accessories. This bag will also be available in May 2011.
